

A MASSIVE STEP FORWARD

S/550

The S/550 carries the DNA of the S/850 in a more compact form. Its re-engineered driver and passive radiator travel further, react faster, and deliver bass that feels louder, richer, and more effortless than ever before. Its new, wider lower cabinet enhances scale and presence, making it feel larger than its size suggests.

Each S/550 is delivered with a matched cloth grille (black or white), with the option to upgrade to the new premium wood grille for a refined visual finish. Small in footprint, but bold in performance, the S/550 is compact authority redefined.

As with all Serie S models, the S/550 is Airship Direct™ ready, offering wireless freedom without sacrificing speed or detail.

Tailored For:

- Dual-use systems (music + theatre)
- Medium rooms
- Stereo Pairs & Line Arrays

Grilles: Standard cloth; optional premium wood grille

Finishes: Piano Black, White Gloss

Key Technical Highlights:
